Stamped Steel Ceilings

THE ELLER MANUFACTURING CO.

SUCCESSOR TO J. H. ELLER & CO.

CANTON, OHIO, U. S. A.

Canton Art Metal Co. Canton Ohio

INTRODUCTORY

WE take pleasure in presenting to the trade this catalogue of SELECTED, CLASSIFIED DESIGNS OF STAMPED STEEL CEILINGS. While designs are shown for square rooms only, that nook or crook cannot be made in a ceiling which we cannot fit with steel and make look neat and attractive.

It is little use for us to elaborate upon the benefits to be derived from using stamped steel for ceilings, for there is hardly a spot on the map into which they have not been introduced and their worth tested.

In ELLER'S ceilings, the modeler's skill has not only been directed to produce patterns which would please the eye, but to harmonize the CLASSICAL ARTS and make LASTING BEAUTY, for in such there is worth and not monotony. Realizing, however, that much was to be done after the modeler had completed his work, we have not stopped. We secured experienced and able mechanics to take up where the modeler left off, and so arrange the dies that each would member properly with others, thereby producing close-fitting joints and REDUCING THE COST OF ERECTING, an essential item, of which every buyer should take note.

Our personal attention is given to the detail of every order, and we can assure you just and liberal treatment on any business entrusted to us.

Terms are 60 days or 2% off for cash in 10 days to customers having a satisfactory rating in the Commercial Agencies. To those who have not, and can send us satisfactory reference, we will extend

the same terms. Customers who prefer to send cash with order may deduct 2%.

WE PAY THE FREIGHT ON ALL ORDERS OF TEN SQUARES AND OVER, UNLESS QUOTED OTHERWISE.

Our responsibility ceases when orders are delivered to and signed for by the Transportation Company, and any loss or damage sustained in transit must be made a claim against the Transportation Company, and not us. If damaged goods are accepted by customer, he should have extent of damage noted on bill of lading by agent of Transportation Company. While we will allow for no loss or damage in transit, we are ever ready to assist in having the Transportation Company allow the claim.

Special attention is given to packing of all orders, and a copy of the packing slip is always forwarded to the customer for checking the material received, and in case of any shortage prompt report of the items should be made. Surplus of material is OUR property and we will expect customer to keep same subject to our order.

Nails for erecting and wood brackets are furnished with each order, without charge.

We furnish working plans and instructions for erecting FREE.

We are ever ready to lend a hand, so do not hesitate in letting us know your wants.

THE ELLER MANUFACTURING COMPANY,

Successor to J. H. ELLER & Co.,
